DECORATING YOUR DREAMS...

MODULED WARDROBES

La Dazzle is offering a range of wardrobe modules that can be combined to create a customized and flexible wardrobe space. This modular approach allows you to design your wardrobe according to your specific needs and preferences. Here are some general tips for designing your wardrobe space using modular modules:

Step-1 – Measure Your Space

Before purchasing any modules, accurately measure the available space where the wardrobe will be placed. Consider the height, width, and depth to ensure that the modules will fit seamlessly into your room.

Step-2 – Mix and Match Modules

La Dazzle's range likely includes modules of different sizes and configurations. Experiment with combining various modules to create a layout that suits your storage needs. Take help from examples shown from Page 32-35.

Step-3 – Identify Your Storage Needs

Assess your storage requirements. Consider how much space you need for hanging clothes, folded items, shoes, accessories, etc. Select Inner configurations accordingly.

Step-4 – Aesthetics and Style

La Dazzle may offer modules in different styles, finishes, and colours. Consider a combination of wood and glass for a contemporary and elegant appearance. Use page 23 to 31 for reference.

Step-5 – Installation and Assembly

La Dazzle provides hassle free delivery and installation service at very nominal cost.

These ready modules make the lengthy process of designing to installation shorter. You can get your wardrobe installed in a weak time.

WHY DAZZLE?

- 5 years warranty.
- Experienced Installers.
- Prompt after sale service.
- Longest range of finishes.
- 100% free innovative design service.
- Equipped with best in class panel processing machines.
